Two Thumbs Up!...for Lifecore's Latest Advancements

Critics are hailing Lifecore's upcoming product introductions as some of this year's best.

RENOVA™ RBM Internal Hex Implant System

Pending 510(k), not for sale in the United States.

- Available in Tapered and Straight implant designs
- Internal hex prosthetic connection offers increased stability, superior strength and indexability
- Proven RBM surface
- Available in three connection diameters for prosthetic versatility (Small, Regular and Wide Diameter)

RESTORE® RBM External Hex Implant System

- New RBM implant thread design minimizes insertion torque during implant placement for reduced bone stress and easy implant seating
- Superior implant stability from initial engagement to final implant seating
- Color-coded implant hex and prosthetic table for easy identification of the prosthetic connection

STAGE-1™ Cement-on Crown (COC) Quick-Pack

- All restorative components necessary for fabricating cement-retained restorations combined in one resealable package
- Easy ordering and simplified communication among the restorative team members

Lifecore LC5000 Surgical Motor

Pending 510(k), not for sale in the United States.

- Program and patient information *Smart Cards* permit instant data saving and retrieval for customizing programs and documenting patient treatment information
- Self-calibrating function ensures accurate torque control up to 50Ncm
- Preset programs provide quick reference to Lifecore's surgical and restorative protocol, plus memory for up to 20 custom programs
- Compact size increases surgical work area
- Straight-forward layout and large on-screen displays increase ease-of-use
